Special Meeting of MCGWG and PWG

25X1A

1. A special COMOR MCGWG-PWG meeting was arranged 28 September 1965 by [redacted] to consider MC&G requirements for KH-4 photography inside the Sino-Soviet area. [redacted] arranged the meeting on short notice in order that coverage requirements could be considered for Missions 1024 and 1026.

25X1A

25X1A

2. [redacted] indicated that when the KH-4 coverage of a given map-chart area in the Sino-Soviet bloc consisted of many bits and pieces from many different missions, there were significant problems in mapping and charting such that recoverage of limited areas should be

DIA review(s) completed.

MCGWG-M-9
Revised

considered. [] of AMS presented a briefing for DoD which pointed out that when it was necessary to use many bits and pieces in the triangulation phase of mapping, there was an increase in cost and time by a factor of three and also that there was a severe degradation in the accuracy that could be obtained both in horizontal positioning and extending contour accuracies over significant distances. He presented specific localized areas recommended by Army and Air Force production units where production was currently under way as recovery requirements which had been grouped in two priorities by DIA. These areas totaled approximately 470,000 square miles. [] noted that nearly all of these requirements fell within the existing intelligence "holidays." He suggested that these areas be added to the KH-4 "holiday" chart prepared by AMS for NRO and COMOR. This proposal for handling the requirement was agreed to and AMS was asked to provide appropriate indexes to the NRO and to maintain the MC&G required areas as "holidays" until the strict MC&G coverage requirement was satisfied.
